Rishi Neoge
COO - Inventree Hotels

Seasoned Hotelier Rishi Neoge has taken over Inventree Hotels & Resorts as COO. TravTour MICE spoke to Rishi to explore what's on offer from the hotel chain to the MICE sector. Here is what he responded with an evergreen smile :

Q1. From your early career in hospitality to taking on the role of COO at Inventree Hotels & Resorts, yours has been a journey across several facets of the industry. What have been the defining experiences and leadership lessons that have shaped the hotelier you are today?

Throughout my career journey, from the front lines of operations to leading strategic growth as the Chief Operating Officer (COO) at Inventree Hotels & Resorts, my approach to hospitality has been shaped by hands-on execution and adaptive leadership. Managing diverse properties across India—ranging from iconic luxury heritage brands like The Imperial New Delhi to large-scale commercial operations with IHG and Taj (IHCL)—taught me that hospitality is a fine balance of emotional intelligence and strict process discipline.

Here are the defining experiences and core leadership lessons that have shaped my philosophy as a hotelier:

1. The Power of "Glocal" Agility

At Inventree, our core strategy was expanding mid-scale business hotels and eco-resorts into tier-1 and tier-2 markets. This taught me that a corporate strategy cannot be rigid. What works in a bustling metro like Bengaluru does not translate directly to a leisure destination or a smaller business hub.

2. Operational Discipline Drives Creativity

Many view luxury service as purely intuitive, but true consistency relies on robust operational systems. My time with highly structured international brands like IHG and ITC Hotels instilled a deep respect for Standard Operating Procedures (SOPs).

Q2. As COO, what are the key growth opportunities you see for Inventree over the next three to five years—particularly in MICE, corporate travel, weddings, leisure and emerging destinations—and what role will operational excellence and technology play in achieving that vision?

Looking ahead over the next three to five years, Inventree Hotels & Resorts is positioned for rapid scale, targeting an expansion to over 600 keys. India is experiencing a historic surge across macro-economic business hubs and experiential leisure markets. Our growth framework captures this exact momentum.

The key growth opportunities we are pursuing, paired with the precise operational excellence and technological foundation required to scale, center around five strategic verticals:

1. Smart-Sized MICE & Intimate Weddings

While massive convention centers dominate tier-1 city centers, a substantial market exists for efficient, high-utility mid-scale MICE (Meetings, Incentives, Conferences, and Exhibitions) and boutique social celebrations.

- **The Opportunity:** Capturing corporate off-sites, regional dealer meets, and mid-sized destination weddings. This targets corporate hubs near Pune or Bengaluru, and scenic, accessible getaways.
- **Operational Execution:** We design highly flexible, modular banquet infrastructure. This allows a single ballroom to quickly transform from a corporate daytime seminar layout into an evening wedding celebration.
- **Technology Role:** Deploying interactive 3D virtual venue-mapping tools. These allow event planners to remotely simulate seating configurations, stage designs, and audio-visual setups. This significantly accelerates the booking lifecycle.

2. Deepening the Corporate and MSME Market Share

The corporate sector is moving beyond basic accommodation toward hybrid, flexible, and value-driven stays.

Shri Mata Vaishno Devi Shrine

The Divine Calling

Visiting India in search of peace and spirituality is nothing new. What is novel and exciting is that never before has its rejuvenating spirituality been packaged with such an ease. Ascetics and seers in India renounce worldly pleasures and live in austere surroundings in the hills. In this context, Shri Mata Vaishno Devi Shrine, Jammu is the most sought after pilgrimage destination for devotees in India and abroad. The number of visitors of holy shrine of Mata Vaishno Devi is now exceeding 10 million. The pilgrimage to the Holy Shrine of Shri Mata Vaishno Devi Ji is considered to be one of the holiest pilgrimages of our times. Popular the world over as the Mother who fulfills whatever Her children wish for. Shri Mata Vaishno Devi Ji resides in a Holy Cave located in the folds of the three peaked mountain named Trikuta (pronounced as Trikoot). The Holy Cave of the Mother is situated at an altitude of 5200 ft in Trikuta mountains. Pilgrims annually for this divine meet.

The Pilgrims have to undertake a trek of nearly 12 km from the base camp at Katra. At the culmination of their pilgrimage, these pilgrims are blessed with the Darshans of the Mother Goddess inside the Sanctum Sanctorum - the Holy Cave. These Darshans (visits) are in the shape of three natural rock formations called the Pindies. There are no statues or idols inside the Cave. Towards the right of the devotee is the Holy Pindi of Mata Maha Kali in the colour associated with Her i.e. black. In the centre is the Holy Pindi of Mata Vaishno Devi with a yellowish-red tinge, the colour associated with Mata Maha Lakshmi. The Pindi to the extreme left of the viewer is worshipped as the Holy Pindi of Mata Maha Saraswati. It has a whitish tinge when looked at attentively. The Holy Cave attracts millions of devotees every year. This is due to the unflinching faith of the devotees who throng the Shrine from all parts of India and abroad. It is also a matter of experience by almost all those who visit the Holy Shrine that upon the Call of Mata, a person needs to just take one step and leave the rest to Her and his journey gets completed with Her divine blessings. Simultaneously, it is also believed that unless there is a call no one can visit the Shrine or have Her blessings, howsoever high or mighty one may be. Holy Visits are open round the clock throughout the year. More than 66,93,519 pilgrims have already visited the holy shrine till 31st August 2026.

"IN MICE, YOU ARE NOT MANAGING A GROUP — YOU ARE MANAGING THE REPUTATION OF YOUR CLIENT." – PREM SYAL

1. Please elaborate on your journey as a MICE professional.

My journey in travel and tourism spans nearly three decades, and MICE has been a natural evolution of that journey. Having worked extensively in destination management, international tourism and large group movements, I realised very early that MICE is not simply about moving people from one destination to another—it is about creating an experience around a corporate objective. Over the years, I have seen MICE evolve from conventional conferences and incentive tours into highly sophisticated experiences involving storytelling, engagement, networking, celebration, recognition and destination immersion. That evolution led us to create HI OFFSITE as a specialised MICE vertical of HI TOURS GROUP, with dedicated expertise in incentives, leadership offsites, conferences, dealer meets, product launches and corporate celebrations.

My biggest learning has been simple: in MICE, you are not managing a group—you are managing the reputation of your client. There is therefore no room for approximation. Creativity must be backed by flawless execution.

2. What are the USPs of HI OFFSITE?

Our biggest USP is ownership. At HI OFFSITE, we don't look at ourselves merely as an intermediary booking hotels, flights and coaches. We become an extension of the client's team—from the first idea and destination selection to the final guest returning home. Our proposition rests on five strengths:

Experience Design: We believe every offsite needs a story and a purpose. Whether it is a 30-person leadership retreat or a 300 pax large incentive movement, we look for the WOW moment that participants will remember long after the event.

End-to-End Accountability: Destination research, budgeting, contracting, travel logistics, accommodation, venues, production, entertainment, activities, dining, gifting and on-ground operations are managed through one accountable team.

Prem Syal
MD - Hi Tours Group

Strong Destination & Supplier Network: Backed by the experience and international network of HI TOURS GROUP, we combine strong destination knowledge with hotel, DMC, airline and experience partnerships across India and overseas.

Commercial Discipline: Creativity is important, but so are budgets. Our objective is to provide the client with the best experiential value for every rupee spent, supported by transparent costing, professional contracting and financial controls.

Senior-Level Involvement: Particularly on important programmes, senior management remains involved. Clients need to know that when an unexpected situation arises, there is someone empowered to make a decision immediately.

Our philosophy can perhaps be summed up in one sentence: "We don't sell offsites. We create experiences that companies and their people talk about for years."

3. How do you rate incoming MICE traffic to India nowadays?

I would describe India's inbound MICE opportunity today as extremely promising, but still substantially under-realised.

India has undergone a remarkable transformation. We now have world-class convention infrastructure such as Bharat Mandapam, Yashobhoomi and Jio

World Centre, significantly improved airports and connectivity, an enormous inventory of quality hotels and, most importantly, an unmatched range of experiences.

The successful execution of the G20 meetings across numerous Indian cities also demonstrated to the world that India can handle complex international events at scale.

But infrastructure alone does not make a MICE destination. What makes India exceptional is what happens after the conference doors close—a private dinner overlooking a palace, an evening in the desert, a sunrise experience by the Ganges, a heritage celebration in Rajasthan, wellness in the Himalayas, wildlife, cuisine, music and hundreds of different cultural experiences.

I would therefore say:

“India has moved from being a country with MICE potential to a country with proven MICE capability. The next challenge is marketing that capability aggressively to the world.”

We still have considerable headroom compared with established MICE destinations, and I see that as an opportunity rather than a weakness.

4. What is your target market in the years to come?

For HI OFFSITE, the opportunity is both outbound from India and inbound into India.

Within India, we are focusing strongly on progressive mid-sized and large corporates across sectors such as IT & technology, pharmaceuticals, automotive, BFSI, manufacturing, FMCG, consumer businesses and professional services—companies that increasingly see incentives and offsites as tools for motivation, retention, culture-building and performance recognition.

Internationally, we see significant potential for Indian corporate movements into Southeast Asia, the Middle East, Central Asia, Europe, Japan and other experiential destinations.

At the same time, incoming international MICE into India will be an important growth pillar for us. India is ideally positioned for incentives, association meetings, conferences and special-interest corporate groups that want something more meaningful than a conventional city convention.

We particularly want to build business where the brief is not simply “Give us 200 rooms and a ballroom”, but rather: “Give our 200 people an experience they will never forget.” That is where HI OFFSITE is at its best.

5. What is your corporate outreach programme for the upcoming fiscal?

Our corporate outreach strategy for the coming fiscal will move away from mass selling towards highly focused relationship-led account development. We are building a structured key-account approach targeting decision-makers across HR, Sales, Marketing, Procurement, Administration and senior leadership, because MICE today touches multiple stakeholders inside an organisation.

Our programme will combine personal corporate meetings, destination showcases, experiential presentations, webinars, leadership roundtables, hotel and destination partner interactions, familiarisation opportunities and strong digital engagement, supported by an active presence across major corporate markets including NCR, Mumbai, Bengaluru, Hyderabad, Chennai, Pune and Ahmedabad.

We also intend to engage corporates much earlier in their planning cycle. Instead of waiting for an RFP saying, “Please quote Bangkok for 400 people,” we want to sit with the client before the destination has even been decided and ask:

What is the objective? Who are the participants? What should they feel when they return? And what business outcome should this investment achieve?

That changes the conversation completely.

The next phase for HI OFFSITE is therefore about becoming less of a MICE vendor and more of a strategic corporate experience partner.

And that is ultimately where I believe the MICE industry itself is heading—from logistics to experiences, from events to engagement, and from expenditure to measurable business impact.
